FCC and FAO/WHO Compliance Statement

Article Number: F00613

Product Name: Jack's Passion

This product only uses flavor ingredients that are in compliance with the quality standards and specifications of global regulatory bodies including:

- 1) All ingredients utilized to create this product meet the quality standards and specifications of the Food Chemicals Codex (FCC) and the joint FAO/WHO Specification for Flavourings (SFF).
- 1) Where FCC and/or FAO/WHO quality standards and specifications do not exist for a select few specialty compounds that are naturally occurring in cannabis (e.g. humulene a.k.a. alpha-caryophyllene), we use material that is FCC and FAO/WHO compliant for a similar compound (e.g. beta-caryophyllene).
- 2) As an additional standard of quality, this finished product is compliant with California quality standards and specifications for cannabis products as delineated in Title 16 of the California Code of Regulations, Section 5715. These include contaminant limits for residual solvents and pesticides that are typically more stringent than similar global standards for food ingredients and products. This information is indicated on our lot-specific certificates of analysis.
